Hi Robert, how are things looking today for my request?

Many thanks,
Vince

Thanks, Vince. Someone will get back to you. Just so you know, we'll be working on written responses in case no one's available for a brief interview.

Regards, R.

Hello and thank you for your response.

I hope to discuss with one of you tomorrow, by 1 pm east coast time.

Questions:

- 1. What is known so far of GenX, the compound used in Teflon.**
- 2. It is an unregulated compound. How does it become regulated?**
- 3. People here who have heard about it in the drinking water supply from the cape fear river are alarmed. Should they be?**

That would cover it. Thanks! Vince

Hullo Vince,

My colleagues from EPA's Office of Research and Development have forwarded me your inquiry. Could you send me some questions as well as a deadline?

Regards, R.

Subject: GenX question - from Vince at WHQR Public Radio in Wilmington, NC

I came across your name as I read about GenX, and the water supply here at the Cape Fear River, which has shown to have some GenX in it.

Would you have a few minutes to discuss?

Vince
